**DEPARTMENT OF PUBLIC INSTRUCTION
2013-15 BIENNIAL BUDGET
DRAFTING REQUEST TO THE LEGISLATIVE REFERENCE BUREAU**

☒ Draft for Possible 2013-15 Budget Bill Introduction (*Agency Decision Item No. 5000*)

Subject: Statewide Student Information System

Request Date: September 17, 2012

Agency Contact: Mike Bormett, 266-2804

Brief Description of Intent:

The department is requesting that an existing biennial appropriation be changed to a continuing appropriation and that a new continuing appropriation be created.

Wis. Stats. 20.255 (1) (e) contains GPR to be used for the Statewide Student Information System. Wis. Stats. 115.28 (12) (a) requires the department to establish a student information system to collect and maintain information about pupils enrolled in public schools, including their academic performance and demographic information, aggregated by school district, school, and teacher. In addition, statute requires the department to ensure that within five years of the establishment of the system, every school district is using the system. As part of the implementation, state funding is designated to pay for the costs school districts incur to switch to the statewide system. Changing the appropriation to continuing will allow the department to bring school districts onto the system as they are ready, during the five year implementation window, rather than as funds are available or according to a state determined schedule that does not meet the needs of individual districts.

Wis. Stats. 115.28 (12) (b) authorizes the department to charge a fee to any person that uses the system. It specifies that all fees shall be credited to the appropriation account under s. 20.255 (1) (jm), Wis. Stats. The department is requesting that a new continuing appropriation be created for all fees to be credited to instead of the existing appropriation. The majority of fees collected under this statute will be from school districts using the system for purposes of paying the contracted vendor and the associated costs of maintaining the system. These fees will be billed to and paid by school districts prior to payment being due to the contracted vendor. Creating a new continuing appropriation for user fees will allow the department to collect and pay fees based on the implementation schedule that best meets district needs, rather than allowing district implementation based on the authority to pay fees out to the contracted vendor. It will also ensure district fees are used for the purpose intended, separating them from fees paid for other programs or services.
